

Dr Jian Yang
Senior Lecturer
School of Biomedical Sciences, LKS Faculty of Medicine
The University of Hong Kong

Biography:

Dr Jian Yang graduated from Peking University Health Science Center and went on to pursue a PhD in neuroscience at University of Bristol. He joined the Department of Anatomy, the University of Hong Kong after graduation in 2007, and devoted his passion to anatomy and histology education since 2012. He is now a senior lecturer in the School of Biomedical Sciences, LKS Faculty of Medicine, the University of Hong Kong. His teaching expertise include gross anatomy, neuroanatomy, histology and problem-based learning.

He dedicates his effort in converting instructional anatomy and histology classes into indispensable active-learning experience. His research focuses on integrating digital/mobile technology to enhance active learning in anatomy and histology labs. The current projects include creating digital learning environment, peer-learning and peer-support system for gross anatomy and histology practicals; developing virtual reality anatomy lab and integrating VR-enriched tasks (VRET) into gross anatomy classroom to promote active learning.
